PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Developer with hands-on experience in HTML, CSS, and JavaScript. Passionate about creating responsive, user-friendly websites and learning SEO strategies to boost online visibility. Familiar with Bootstrap, GitHub, and basic digital tools like MS Excel and Canva. Eager to grow in a dynamic tech environment and contribute to digital success.

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, jQuery

SEO: On-page SEO, Keywords, Meta Tags, Basic Google Tools

Tools: Git, GitHub, VS Code, Canva

Office: MS Word, Excel, PowerPoint

PROJECTS

- **Portfolio Website**

Created a personal portfolio using HTML, CSS, and JavaScript. Included sections like About Me, Skills, Projects, and Contact with a clean layout and responsive design. Integrated animations and hover effects to enhance user experience.

- **SEO Optimization Demo**

Worked on a demo website to implement basic on-page SEO techniques such as keyword placement, meta tags, image alt attributes, and internal linking. Improved page readability and search engine visibility using best practices.

- **Shoe Store Frontend (UI Design)**

Designed a static e-commerce website layout for a shoe store using HTML, CSS, and Bootstrap. Developed product cards, navigation bar, and a responsive layout to simulate a real shopping interface.
